

# FEBRUARY - Pet Spay/Neuter month

MONDAY TUESDAY WEDNESDAY THURSDAY FRIDAY SATURDAY SUNDAY

1

2

## 3 Disease Prevention

#DiseasePrevention is an essential part of farm management.

Healthy animals support sustainable food production.

<https://resources.animalhealtheurope.eu/resource/1579>

## 4 World Cancer Day

Today marks #WorldCancerDay. Improving the speed of cancer diagnosis can be a challenge, but cancer detection dogs can help out! #PetPower. Read more about the work of Medical Detection Dogs here <https://www.medicaldetectiondogs.org.uk/cancer-detection/>

## 5 One Health

The #OneHealth concept recognises that animal health, human health and our shared environment are deeply interconnected.

Vector-borne diseases are a One Health challenge requiring further attention with our changing climates.

<https://resources.animalhealtheurope.eu/resource/1801>

## 4 Discontools disease update

Check out the #DISCONTTOOLS research gap update on Bovine respiratory syncytial virus (#BRSV). <https://www.discontools.eu/database/118-brsv.html>

## 7 Pet Care

Our furry best-friends may need some extra care during the cold winter months. Check our infographic for some winter pet care tips

<https://resources.animalhealtheurope.eu/resource/175>

8

International Women's Day

9

## 10 Sustainability

We all want our food to be produced as sustainably as possible. Healthy animals play a central role

<https://resources.animalhealtheurope.eu/resource/1072>

## 11 AMR

We can take action to help ensure the efficacy of #Antibiotics for future generations. How? Through #ResponsibleUse!

Antibiotics should only be used as little as possible, as much as necessary! <https://resources.animalhealtheurope.eu/resource/1641>

## 12 Pet Care

Did you know? Some comon house plants can be extremely toxic to our pets. Check out some plants to avoid

<https://resources.animalhealtheurope.eu/resource/1632>

## 13 Discontools disease update

#DISCONTTOOLS researchers have updated their database, this time on Mammalian #Tuberculosis.

Check their website to know more: <https://www.discontools.eu/database/74-mammalian-tuberculosis.html>

## 14 Pet Power

Our pets can have such a positive impact in our lives, that's their #PetPower! How has your furry friend impacted your life?

#HumanAnimalBond

<https://resources.animalhealtheurope.eu/resource/1684>

15

16

## 17 Food Safety

How can healthy animals contribute to #FoodSafety? Our infographic can tell you how

<https://resources.animalhealtheurope.eu/resource/1607>

## 18 Discontools disease update

Researchers say better options are needed to control #Brucella.

Check out the latest #DISCONTTOOLS database update for more info: <https://www.discontools.eu/database/42-brucellosis.html>

## 19 Innovation

New #vaccination technologies are improving #AnimalHealth and welfare. How? Check this example

<https://resources.animalhealtheurope.eu/resource/1600>

## 20 Love Your Pet Day

It's #LoveYourPetDay! From boosting our mood to helping to keep us fit, our beloved pets make our lives so much better

#HumanAnimalBond <https://resources.animalhealtheurope.eu/resource/649>

## 21 Pet Care

Losing a pet is one of the biggest fears of pet parents.

A study showed that cats with #microchips are 20 times more likely to be returned to their owners than cats without them. Dogs with microchips are 2.5 times more likely to be returned to their owners than those without.

22

World Water Day

23

## 24 #AnimalHealthMatters

Improving #livestock health supports food safety and quality, while contributing to the sustainability of our food systems. #AnimalHealthMatters

<https://resources.animalhealtheurope.eu/resource/1243>

## 25 World Spay Day

Spaying or neutering your pet is the right choice to take! Why? Because preventing health issues and unwanted litters saves on veterinary care costs in the long run, for both you and animal shelters.

#WorldSpayDay

<https://resources.animalhealtheurope.eu/resource/171>

## 29 Discontools disease update

Check out the #DISCONTTOOLS project database update to learn more about the research gaps on Crimean-Congo Haemorrhagic fever.

<https://www.discontools.eu/database/81-crimoan-congo-haemorrhagic-fever.html>

## 27 Vaccination

Did you know? Needle-free vaccination technologies are available in animal health. This innovative solution reduces pain and discomfort for animals during the #vaccination process, making it a more stress-free experience.

<https://resources.animalhealtheurope.eu/resource/1599>

## 28 Pet Power

Do you think your pet improves your life?

Here's just one example of their amazing #PetPower

<https://resources.animalhealtheurope.eu/resource/1675>
