

NOVEMBER - Pet Diabetes Awareness Month

NOVEMBER

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY
				1 One Health This Sunday marks #OneHealthDay. But what is #OneHealth? What does it mean for us? Watch this https://resources.animalhealtheuropa.eu/resource/975	2	3 One Health Day In today's world we increasingly realise that human, animal and environmental health are connected. That's #OneHealth! Collaboration between all disciplines is to develop practices that take their complexities and inter-relationships into account. #OneHealthDay https://resources.animalhealtheuropa.eu/resource/949
4 Pet Power This week marks International #StressAwareness Week A UK study showed pets are a valuable source of support during upsetting experiences. That's their #PetPower! Learn more here https://pet-power.eu/pet-benefits/	5 EAAD European Antibiotic Awareness Day is coming up later this month #EAAD #Antibiotics will remain an important treatment tool for animals, but can we reduce their need while ensuring good #AnimalHealth? Here's some tips! https://resources.animalhealtheuropa.eu/resource/1395	6 Article	7 Vaccination Did you know that the first animal vaccine was created in 1879? Since then #vaccines became an important tool they help ensure the welfare of farm animals, the efficiency and sustainability of farming practices, & the safety and availability of food https://resources.animalhealtheuropa.eu/resource/519	8 Pet Care Did you know that pets can also get #diabetes? Diabetes is more common in older animals, but it can also occur in younger or pregnant pets. If your pet is showing any of these symptoms, consult your #veterinarian. More info here: https://www.avma.org/resources/pet-owners/petcare/diabetes-pets	9	10
11 Animal health Safe-guarding animal health is essential for the welfare of all farmed animals. But how can we do that? With: Prediction Prevention Monitoring Diagnosis Treatment https://resources.animalhealtheuropa.eu/resource/1310	12 Innovation Modern animal health, as we now recognise it, began in 1761. And our industry has been innovating ever since! Providing more #AnimalHealth solutions for #farmers and #veterinarians and ensuring a more holistic health care approach https://resources.animalhealtheuropa.eu/resource/1086	13 Article	14 World Diabetes Day Have you ever heard of a #Diabetes alert dog? These assistance dogs are trained to detect high or low levels of blood sugar in people with diabetes and alert their owners. Watch this to learn more #WorldDiabetesDay (Pet Alliance Europe video)	15 Pet Care A healthy and nutritious diet is really important for our health and that's also true for our pets! Find out 5 health concerns for your pet that can be caused by incorrect diets #PetCare #PetHealth https://resources.animalhealtheuropa.eu/resource/1384	16	17

World AMR Awareness Week (WAAW)

18 European Antibiotic Awareness Day It's European Antibiotic Awareness Day! #EAAD In order to make sure #antibiotics continue to work, we need to use them responsibly. But that's not all, reducing the need to use them is also essential in the fight against #AMR. Watch this to learn more https://resources.animalhealtheuropa.eu/resource/1220	19 Responsible Use #Antibiotics should always be used responsibly. As little as possible, as much as necessary, under veterinary prescription. https://resources.animalhealtheuropa.eu/resource/1641	20 Responsible AB use in pets We all have a role to play in the fight against #AMR, including pet parents. Check out our 10 recommendations and remember to always use all animal medicines according to #veterinary prescription. https://resources.animalhealtheuropa.eu/resource/1208	21 World Fisheries Day It's #WorldFisheriesDay Here's an example of how #vaccination helped Norway improve fish health and reduce the need for #antibiotics https://resources.animalhealtheuropa.eu/resource/184	22 Reduction gif #Farmers and #veterinarians play a key role in preserving the efficacy of #antibiotics Robust breeds Preventive care Appropriate nutrition Good hygiene & biosecurity These all play a role in reducing the need for antibiotics #WAAW #EAAD https://resources.animalhealtheuropa.eu/resource/1687	23	24 World Science Day
25 Responsible Use Each farm will need its own animal health plan to address the challenges that are most relevant to them Reducing the need for #antibiotics comes with improved #AnimalHealth https://resources.animalhealtheuropa.eu/resource/1408	26 Pet Power We want to share with you the science behind the #HumanAnimalBond! The love and connection we share with our pets gives our mental and physical health a boost #PetPower https://pet-power.eu/pet-benefits/	27 Article	28 Sustainability Improved #AnimalHealth is at the center of #sustainable farming A sustainable food supply is essential for feeding our growing world population with safe and nutritious products https://resources.animalhealtheuropa.eu/resource/841	29 Pet Care Are you considering getting a pet? We want to help you make an informed decision, so here are a few things to consider before bringing a pet into your life #PetCare #AdoptDontShop https://resources.animalhealtheuropa.eu/resource/998	30
