

# JUNE - Adopt a pet month

MONDAY                      TUESDAY                      WEDNESDAY                      THURSDAY                      FRIDAY                      SATURDAY                      SUNDAY

**3 #UseYourVote**                      **4 Hug Your Cat Day**                      **5 World Environment Day**                      **6 Pet Care**                      **7 World Food Safety Day**                      **1 World Milk Day**                      **2**

The #EUelections2024 are happening this week  
Remember to #UseYourVote!  
If #AnimalHealthMatters to you, vote for those who care about animal health too.

Shower your purrfect feline friend with love and attention today, it's #HugYourCatDay!

It's #WorldEnvironmentDay  
How can we help make #LivestockFarming more sustainable? With improved animal health  
<https://resources.animalhealththeurope.eu#resource/1465>

Bringing a pet into your home is an important decision, and we want to help you make an informed choice! Check out our infographic for some tips  
<https://resources.animalhealththeurope.eu#resource/998>

#FoodSafety is something that matters to all of us  
Keeping farm animals healthy supports a safe food supply  
[#WorldFoodSafetyDay https://resources.animalhealththeurope.eu#resource/1607](https://resources.animalhealththeurope.eu#resource/1607)

It's #WorldMilkDay!  
Thanks to dairy farmers in Europe, we can enjoy safe and nutritious milk, yogurt, cheese & so many other tasty products

**10 Innovation**                      **11 Pet Care**                      **12 Sustainability**                      **13 Disease prevention**                      **14 Pet Power**                      **15**                      **16**

Did you know? Some ear-tags for livestock work like our smartwatches, providing the farmer real-time health data from their animals  
This is one of the many examples of how technologies can support #AnimalHealth and welfare  
<https://resources.animalhealththeurope.eu#resource/1611>

Considering getting a pet? Visit your local shelter!  
At adoption centres you can find so many different breeds, mixes, colours and personalities.  
#AdoptDontShop  
<https://resources.animalhealththeurope.eu#resource/156>

We know people are concerned about #emissions from livestock farms.  
A recent study found that preventing disease in animals has a positive impact on #GHGemissions  
<https://resources.animalhealththeurope.eu#resource/1454>

Preventing disease in animals goes beyond #vaccination.  
There are other important tools and practices, watch this to learn more  
#DiseasePrevention  
<https://resources.animalhealththeurope.eu#resource/840>

Assistance Dogs are pure #PetPower!  
Diabetes alert dogs can alert their owner to low blood sugar levels, before they even feel the effects, helping people with diabetes feel safer.  
#DiabetesAwarenessWeek

**17 Loneliness Awareness Week**                      **18 #AnimalHealthMatters**                      **19 Pet Care**                      **20 One Health**                      **21 Bring Your Dog To Work Day**                      **22**                      **23**

The companionship our pets provide us with helps reduce feelings of loneliness  
#PetPower  
During #LonelinessAwareness Week, let's appreciate the love our fur babies give us  
#HumanAnimalBond  
<https://resources.animalhealththeurope.eu#resource/892>

Animal health should matter to everyone. Why? We give you 5 reasons  
#AnimalHealthMatters  
<https://resources.animalhealththeurope.eu#resource/1622>

Are you thinking of bringing a second pet into your family?  
There's a few things to consider so everything can go smoothly  
#PetCare  
<https://resources.animalhealththeurope.eu#resource/737>

What is #OneHealth? Why should we encourage One Health policies and strategies?  
Check this out  
<https://resources.animalhealththeurope.eu#resource/988>

It's Bring Your Dog To Work Day and our first four-legged visitor, Louis, has approved our new offices after a thorough check up  
#HumanAnimalBond #OfficeDog

**24 AMR**                      **25 Pet Care**                      **26 Sustainability**                      **27 #MorethanMedicine**                      **28 Pet Power**                      **29**                      **30**

The responsible use of #antibiotics means using them:  
when they are needed,  
in the amount needed,  
and under veterinary supervision.  
<https://resources.animalhealththeurope.eu#resource/1406>

There's a lot to consider before adopting or purchasing a pet!  
They need love and attention, but also a routine, food, toys and visits to the vet. Make sure you are ready for the responsibility  
<https://resources.animalhealththeurope.eu#resource/1618>

Farms create jobs for millions of European farmers, farm workers and people living outside of towns.  
It's important to ensure farming practices are #sustainable, and improving #AnimalHealth is a good start for that  
<https://resources.animalhealththeurope.eu#resource/1401>

The #AnimalHealth sector offers #MorethanMedicine!  
New tools and technologies are improving the way pet owners, veterinarians and farmers take care of their animals  
<https://resources.animalhealththeurope.eu#resource/513>

Our pets are good for us, we can all agree to that  
But their #PetPower also has positive effects on our physical and mental health. Watch this  
#HumanAnimalBond
